

## ANOTHER CRISIS SEEMS AT HAND

Czar's Reply to Demands of Russian Assembly Will Be Read Today.

## MANY MURDERS RECORDED

## COSSACKS CHARGE A CROWD AT MOSCOW.

Windau, Corland, May 25.—A large peasant proprietor named Kronberg of German descent, was killed today by a band of Lettish revolutionists.

Vitebsk, Russia, May 25.—M. Belkings, director of the Vitebsk tobacco factory, was killed today for political reasons. The assassin escaped.

Grodno, May 25.—Sergeant of Police Kozal was shot and killed in the open streets today, and Assistant Captain of Police Shkashko was wounded. There is great feeling against the terrorists.

Tiflis, May 25.—M. Lefevre, the principal engineer of Caucasus railway shops here, was killed today. The crime is attributed to political motives.

St. Petersburg, May 25.—Premier Gorevkin at 3 o'clock tomorrow afternoon will read before the lower house of parliament the government's response to the address in reply to the speech from the throne and announce the government's policy.

The conservative-liberal newspaper Strana (Country), which claims to have inside information, says the declaration will take up and answer point by point the house's address, the response to the demands on the all-important agrarian question being a flat pronouncement on the inviolability of private property and a recommendation that the solution be sought in improving any intensifying methods of agriculture and the migration of the surplus population to the sparsely settled regions of Siberia and Central Asia.

## Proposal for Reform.

On the other points the Strana says the recommendation will be largely negative, but there will be a positive proposal for reform in local administration, including the abolishment of the hated Zemsky Nachalniki, or petty administrative despots whose harshness and tyranny is one of the main grievances of the peasantry, and the placing of gendarmes and rural police under the control of the judiciary instead of administrative branches.

With regard to amnesty, the cabinet will declare for a continuation of the whole-sale release as far as possible, but will insist that a general amnesty is inexpedient.

## Will Not Satisfy.

The position of the government on the amnesty and agrarian propositions will not satisfy the general cry. A dispatch to the Associated Press from Moscow tonight says that denial of full amnesty probably will be followed by a general strike. Similar news has been received from other industrial centers. If today passes without a general amnesty or if only limited amnesty should be granted, a general strike is expected. Hundreds of people are leaving the city, apprehending a recurrence of the scenes of last December or collisions between the Black Hundreds and strikers. A strike has already begun in the suburb of Bogodorsk.

## Charged by Cossacks.

On account of the festival of the ascension a great multitude gathered today at the monastery of St. Nicholas, on "Holy Lake." In the outskirts of Moscow. Workmen in the crowd attempted to organize a demonstration, whereupon Cossacks charged the crowd fiercely. Many innocent persons, including women and children, were ridden down and lashed with the Cossacks' whips. Two persons were killed. At another demonstration near the Spassky gate a policeman's skull was fractured.

The Constitutional Democratic members of the house are caucusing tonight on the agrarian question, which evidently is the most perplexing problem thus far encountered. A great diversity of opinion is manifested. Apparently it is feared that there will be great difficulty in formulating a law, which, however it may be drafted, is bound to be subject to attack from the party of the left.

## WEATHER UNUSUALLY COLD

## PATIENCE OF THE UNFORTUNATES SORELY TRIED.

San Francisco, May 25.—A storm of wind and rain which began in this city yesterday afternoon continued all night, and though it is less severe today, rain is still falling and the weather is unusually cold. The storm has caused much discomfort among the refugees who are temporarily encamped in the parks and public squares. Many of these are poorly sheltered in tents, while others are without any protection from the elements except rudely constructed coverings improvised from oil cloth and old carpets. Some have insufficient bedding and the great majority sleep on the ground with out springs or good mattresses. In several of the camps the ground slopes so that persons located on the lower sides suffered more or less from water running toward the sewers.

## Health Remains Good

No cases of illness caused by the rain have been reported as yet, but it is feared that throat and lung troubles may develop from the moisture.

## FRAUD CRY AGAIN RAISED

Validity of the Recent Denver Election Will Be Tested in Court.

Denver, May 25.—District Attorney George A. Stidger today brought quo warranto proceedings in the district court against the Denver City tramway company and the Denver A. and E. electric company to test the validity of the franchises granted these companies at the city election on May 15 on the face of the returns. It is alleged in the complaints that hundreds of fraudulent votes were counted for the franchises, and that they were defeated by at least 300 votes.

Four other suits, two quo warranto and two injunctive, are being prepared by the Municipal Ownership league against the same two corporations, and will be entered next week regarding the franchises of District Attorney Stidger, who holds that such proceedings can be instituted only by the general city council.

## CANNOT BE FORCED TO VIOLATE THE LAW

Kansas City, May 25.—Judge Smith McPherson of Iowa, in the United States district court here today refused to grant injunctions against the Harvey King Distilling company of Kansas City, which asked that the American Express company be restrained from refusing to transport packages destined to Mississippi. The express company, which had been transmitting these packages up to May 15, then refused to accept them because of the passage by the recent Mississippi legislators of a local option law imposing a heavy fine for such acts. It was stated that there are now 200 packages of liquor in Mississippi and if the express company were to deliver these they would be liable to fines aggregating two and a half million dollars. Judge McPherson, in denying the injunction, said that if he were to grant it it would result in 200 express agents being thrown into jail.
